

TDS & ASSOCIATES
BACK TO WORK

Phased reopening and return to work guidelines require that businesses utilize safe return procedures, which are different from what most have been accustomed to. Executives now have to navigate and manage the complexity of measured, safe re-openings, which include mandates and varying city, state, and federal guidelines — all of which are certain to evolve dynamically over time.

TDS *Back to Work* solutions address many of the challenges that corporate America is facing in ramping up to pre-pandemic operating capacity. Our comprehensive end to end viral mitigation solution provides everything you will need from training compliance and disinfecting protocols, to same day testing and A.I. threat detection systems. We handle the heavy lifting in the background so your leadership team can focus on taking care of your employees and customers.

In conjunction with TDS Labs we are happy to provide but are not limited to the following services:

- ▶ COVID-19 Same Day Testing (onsite or at home with built in reporting for contact tracing)
- ▶ Facility Testing Solutions Consulting
- ▶ Air Quality Management
- ▶ Janitorial Staff Training
- ▶ Recommended Sanitizing & Disinfecting Products
- ▶ Weekly Full Service Janitorial Services
- ▶ A.I. Threat Detection Systems that track net headcount, human temperatures, weapons and more
